

# It's a Dog's Life . . .

And award-winning artist **Linda Picken** has portrayed it beautifully on a new collection of Zippo lighters.

Picken's animal and wildlife art has graced numerous magazine covers, catalogs, greeting cards, limited edition prints, and collectors' plates. Now, for the first time, Zippo's color imaging process captures Picken's animal portraiture on classic satin chrome Zippo lighters.

Zippo's color imaging process is a transfer printing method that replicates four color process printing directly on the lighter surface.

## Stock only the best!

For optimum performance of every Zippo windproof pocket lighter, we recommend genuine Zippo flints, wicks, and premium lighter fluid. For the Zippo BLU® butane lighter, MPL®, Mini MPL® and Outdoor Utility Lighter, we recommend Zippo premium butane.

## Zippo windproof lighters BACK ON BOARD!

One Zippo fueled windproof lighter is now permitted in the passenger cabin of commercial aircraft and in the secure areas of U.S. airports.

This ruling by the Transportation Safety Administration (TSA) was effective in August 2007.

In addition, two Zippo fueled windproof lighters can be stowed in checked luggage as long as they are packed in an approved case (such as a ZAC – Zippo Air Case).

Note: Torch-style butane lighters are not permitted in the passenger cabin or beyond the airport security checkpoint.
